Help our work live on

Helping us to help others

For almost 30 years Hospice Isle of Man has been helping local people affected by life threatening illness, providing nursing care, support and advice for patients and their families at a time when they most need it.

We treat around 350 patients every year and the services we offer are delivered completely free of charge.

Whilst we do receive a vital grant from the Department of Health, the majority of our funding comes from the local community through donations, Gifts and Legacies made by people just like you... quite simply, we couldn't do it without your help.

80% of our funding comes
from people just like you.

Did you know?

It costs £300 a day to provide a bed in Hospice.

Our highly professional staff deliver a standard of care that is second-to-none and all of our services are provided to patients and their families free of charge.

We help around 800 local people and their families every year.

By leaving a financial Gift or Legacy to Hospice in your Will, you can make a huge difference to the lives of hundreds of local people for years to come.

It costs around £10,000 a day to run Hospice.

We manage our money very carefully. Our Chief Executive, senior management team and Board of Governors ensure that every penny is spent prudently and that Hospice delivers real value for the people of the Island.

Eighty-three pence in every pound you donate is spent directly on patient care.

We help those who have just been diagnosed or are living with a life threatening illness and also provide support to their families.

We need to raise £3.5million every year to continue providing help and support to local residents.

This money funds a wide range of free services for local people including day care, in-patient care, our children's unit Rebecca House, specialist nurses, counselling and bereavement service and our Hospice at Home service.

How can you help?

By leaving a Gift or Legacy to Hospice in your Will, you can help us continue to help others for many years to come.

For further details go to:
