

Palliative Care Academy

EDUCATION PROSPECTUS 2019

Hospice Influenced Care

For You & With You

PALLIATIVE CARE ACADEMY

The Academy is where we bring together our goal of 'Share, Learn & Educate'. We will deliver a broad range of training programmes, sharing our expertise in palliative and end of life care internally with our own staff, and also with all of the people who deliver care to the people of the Isle of Man.

Courses and events will be scheduled for all of our partners including professionals, families and carers and our community partners.

HOSPICE INFLUENCED CARE

If we are to achieve our goal of 'Reaching more people, earlier with easier access' we realise that we need to deliver care and support to individuals and their families with a growing range of partners. To facilitate this we will develop a range of training and support tools to build the knowledge, skills and confidence for professionals, patients, families and carers and volunteers.

All of the training we provide will be founded on our culture of 'what matters to me':

To register for our courses please complete the application form (at the back) and email it to education@hospice.org.im

We can also offer bespoke training for you and your organisation, delivered either at the Hospice or at your place of work. If you would like further information or would like to discuss any bespoke training needs, please contact:
Practice Development Lead on 01624 647451/647440

We look forward to welcoming you to the Palliative Care Academy

Hospice Isle of Man**

Terms and Conditions

Confirmation of your place on the course will be sent on receipt of a completed application form

If you need to cancel your place on a course please we would ask that you inform us as early as possible as places are often limited and we could free up a place for someone else to attend.

We will contact you 2 weeks prior to the commencement of the course to check you are still available to attend.

Venues

Venues are as stated on the course information pages but may be subject to change. We will be in touch as early as possible to advise of any changes.

Catering

Refreshments will be provided upon arrival and during breaks.

Lunch can be ordered on the morning of the full day courses for a small cost and paid at the coffee shop.

Certificates

Electronic certificates will be provided upon completion of each course by email.

Further Information

Please contact Practice Development Lead on 647451 for more information and look out for posters on your notice boards or on the hospice website www.hospice.org.im advertising the sessions.

Venue:

Hospice Isle of Man
Strang
Braddan
Isle of Man
IM4 4RP

We are located next to Noble's hospital.

Parking

Limited parking is available on our site. Please park next to the Scholl Centre which is on the **left**-hand side as you enter the grounds.

We will make every effort to meet the needs of disabled delegates, presenters and facilitators.

Disclaimer

While every effort will be made to ensure the named trainers will deliver their course, circumstances may require the use of a substitute.

For further information regarding any of our courses, please get in touch.

Clinical Placements

Clinical Placements are tailored to your individual need and include induction, mentorship, and access to our Hospice Education Programme. You will also gain experience across the Multi-Disciplinary Team either through discussion, attending the MDT Meetings or role shadowing opportunities.

At the end of your placement we will complete reflections and an evaluation with you.

We are proud of the quality of care and services delivered throughout the Hospice and sharing what we do and how we do it, is an honour and privilege.
